MEMORANDUM FOR: Deputy Director for Science and Technology
ATTENTION: Chief, Intelligence Liaison Support Staff
SUBJECT: Annual Report to PFIAB
REFERENCE: Memorandum from C/ILSS/DD/S&T to EO/OEL,
Subject: Same as above, dated
19 August 1969

25X1

1. The Office of ELINT has one specific suggestion which we should like to see incorporated in the report. We should like the following added as the last sentence of the "Countermeasures" section:

"The intelligence studies which result from these special collection operations are of major significance to our own and the military services' countermeasures research and development programs."

2. As a general comment, the section devoted to COMINT does not highlight a single tangible result for the entire fiscal year. In fact, the only result mentioned was the reference to 1967-1968 message exploitation by NSA.
